I am a 5th-year software engineering student at Addis Ababa Science and Technology University (AASTU) and a fresh software engineering graduate at ALX. I am a junior front-end developer. I love working on a challenging and innovative project with a great team. I have been working in fields like fancy UI development, Designing, Algorithms, and Software apps. Quality, scalability, and attention to detail magic are my specialties.

Education

🎓 **Bachelor Degree Student from Department of Software Engineering** [Addis Ababa Science and Technology University](#)
Addis Ababa, Ethiopia
From June 2021 to July 2025

🎓 **ALX Software Engineering Graduate** [ALX SE | ALX Africa](#)
From July 2023 to August 2024

Project experience

Frontend Development [Game Hub](#)

From July 2024 to August 2024

- Developed a frontend for a Game Hub using React, TypeScript, and Chakra UI.
- Implemented dynamic routing, hooks, React Query, and Redux for state management.
- Created a fancy and interactive user interface.
- Deployed the application to Vercel.

Full Stack Development [Airline Reservation System](#)

From February 2023 to May 2023

- Developed a comprehensive admin and passenger sections. The admin dashboard provided robust functionalities including CRUD operations for flights, flight companies, and passenger data, as well as passenger feedback management. Passengers could seamlessly book flights, generate e-tickets, and submit feedback.
- Designed and implemented the system's architecture, encompassing user authentication and authorization
- Developed both frontend and backend components using HTML, CSS, JavaScript, and PHP,MySQL.

Frontend Development [Ethiopian Airlines Clone](#)

August 2023

- Developed a clone of Ethiopian Airlines using HTML, CSS, JavaScript, and Bootstrap for responsive layout.
- Employed Bootstrap's grid system for a mobile-first design, ensuring optimal performance on various devices.
- Utilized custom CSS for unique styling and enhanced user experience.
- Integrated JavaScript for dynamic content and interactive features, improving functionality.
- Deployed the website on GitHub Pages for easy access and visibility.

Work experience

Intern Frontend Developer | Project Manager [@addissystems](#)

Addis Ababa, Ethiopia

From June 2024 to Oct 2024

- Oversee and Lead the project development team.
- Design, Develop and Maintain Various internal and external projects. Implement user interface / Frontend Projects.
- Manage deployment infrastructure and CI/CD pipeline.
- A Demo that deployed on Vercel : [Dirlink Project](#)

Intern Full Stack Developer [@AASTU](#)

Addis Ababa, Ethiopia

From July 2023 to August 2023

- Project name : [Pharmacy Management System](#)
- Full-stack Java application using NetBeans, Swing, and MySQL.
- Developed robust admin and employee roles with distinct functionalities.
- Designed user-friendly interface for managing inventory, sales, and generating bills.
- Integrated MySQL database for efficient data storage and retrieval.

Intern Frontend Developer [@skillbridge](#)

Addis Ababa, Ethiopia

From Feb 2025 to June 2025

- I passed a filtration task of the company(the task was implementing a simple and intuitive landing page using Next.js), [landing Page](#).
- I implemented a pixel-perfect landing-pages using Next.js

Volunteer at [CODE Ethiopia](#) NGO Remote

From Oct 2024 to Nov 2024

- As a volunteer, I developed a device responsive organizational website using technologies like [React 18](#), [Typescript](#), and [Tailwind CSS](#).
